

YEAR ROUND SOURCING

Manteca, California

The San Joaquin valley, with its deep, rich soil and excellent underground water table, is one of the most ideal places in the world for growing high quality tomatoes.

Nogales, Arizona

Ideal location and facilities for service as a U.S. entry and distribution point for our produce.

Baja, Sinaloa and Sonora

These regions in Mexico offer an abundance of quality farm land for growing tomatoes and other fruits and vegetables.

Florida

The temperate climate and fertile soil of this southern state allows for the seasonal planting of outstanding tomatoes.
